

Konica series Konica 512, 14PL&42PL - Solvent Inkjet Printer

Solvent Inkjet Printer-Konica series Konica512, 14PL&42PL

Solvent Inkjet Printer - Konica series Konica512, 14PL&42PL has a breadth of 320cm. This solvent inkjet printer adopts Japanese KONICA print heads, with vivid colors, clear drawings and a high resolution ratio up to 1440dpi. The beautiful and convenient humanized design and a luxurious multi-functional rack make Solvent Inkjet Printer - Konica series Konica512, 14PL&42PL be widely used and more environment-protective. It is suitable for the professional ink-jet printing customers who have great amount of work, and also for these who require too much on printing quality and accuracy. Shanghai Allwin Digital Technology Co., Ltd. is a professional solvent inkjet printer and digital inkjet printer manufacturer in China. XAAR series digital inkjet printers and KONICA series solvent inkjet printers are our main products. Key fact of high quality making digital inkjet printer is that we have mature experience in making digital printers and train our staff with advanced technology of making and using outdoor digital inkjet printer and UV machine.

Specification of Solvent Inkjet Printer- Konica series konica512,14PL&42PL:

Product types: K3208-A K3208-B

Printing technology: Piezo printing

Print head quantity/type: 4/8, 14PL KONICA-512,4/8, 42PL KONICA-512

Media transmission: Roll to roll

Printing port: USB

Max printing width: 3200mm

Printing resolution ratio:360dpi / 720dpi/1080dpi / 1440dpi

RIP software: PHOTOPRINT,MAINTOP,ULTRAPRINT(rip and print simultaneously or print after rip)

Heating system: Pre-heater, front-heater, and bed-heater.

Cleaning system: Air pressure and suction cleaning

Frame Structure of Konica series Solvent Inkjet Printer: Steady girder is used on the machine body, which is made of aluminum and steel on the girder.

Colors : C, M, Y, K orC, M, Y, K, LC, Lm solvent ink

Main power: 220V AC

System : 220V±10%, <4A, 50/60HZ

Heating : 220±10%, <16A, 50/60HZ

Operation environment : Temperature :20 ~30 , Humidity:40%~70%RH

Media type: Banner, adhesive vinyl, PVC self-adhesive, backlit film, flex media within 5mm thickness.

Dimension : (W×H×L) 750×1278×3020mm

Net weight /Gross weight: 700kg/800kg

K3208A Solvent Inkjet Printer

The speed of the present machine in the market is usually about 7-15m²/h, and 3208A's speed

50m²/h (1080dpi) is far more than other machine in same class.
 K3208A solvent inkjet printer will lead to the recombination of inkjet printer industry.

Solvent Inkjet Printer KONICA-512/14PL, 8 HEAD			
Resolution	Print mode	Speed(m ² /h)	Media type
360×1080	3 pass	50	Banner
	6 pass	23	Banner, PVC
360×1440	4 pass	40	Banner, PVC
	8 pass	18	Banner, PVC
720×720	4 pass	20	Banner, PVC

Solvent Inkjet Printer K3208B

This type applies 8 Konica 512 head and the speed is equal to 32 XAAR 128/40pl.
 The standard speed of K3208B solvent inkjet printer is 60-75m²/h. The resolution is obviously higher than XAAR128, spectra and sky walker 128.

Solvent Inkjet Printer KONICA-512/42PL, 8 HEAD			
resolution	Print mode	Speed(m ² /h)	Media type
180×720	2 pass	75	Banner
240×720	2 pass	60	Banner
240×1080	3 pass	40	Banner
240×720	4 pass	28	Banner, PVC
360×720	6 pass	22	Banner, PVC
